REAL TIME PROJECTS

Dental Dashboard & Automation System- A real-time dashboard for dental clinics powered by Google Sheets and n8n, enabling appointment management and automated workflows. Completely free and easy to integrate with any clinic setup.

Snowflake Real-Time Stock Monitoring Pipeline - Data Engineering Project
- Built a real-time stock monitoring pipeline using Snowflake, AWS S3, Lambda, and EventBridge. Implemented automated ingestion, streaming ETL, and anomaly detection using Snowflake streams and tasks to identify price spikes in near real-time.

Production-Ready AI Voice Bot with Groq API - Production-ready Flask voice bot powered by Groq LLaMA 3.3 & Twilio telephony. Delivers <500ms bilingual responses with intelligent speech processing .
